Nigeria

Front-End Developer passionate about crafting intuitive, user-friendly web applications. Proficient in HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap, and SASS, with a keen eye for UI/UX design and performance optimization. Experienced in building responsive, scalable, and cross-browser-compatible applications. Adept at debugging, API integration, and version control using Git/GitHub.

## Work Experience

### Front-End Developer Intern

Mar 2024 - Present

Vephla Group | Remote

- Collaborated with a development team to design and implement user-friendly web interfaces
- Translated UI/UX wireframes into fully functional and interactive web pages
- Assisted in debugging and troubleshooting frontend issues to ensure seamless user experiences
- Optimized web pages for maximum speed and scalability
- Contributed innovative ideas during team discussions to enhance website functionality.

### Front-End Developer (Freelance & Personal Projects)

Jan 2023 - Present

Freelancer | Remote

- Developed responsive web applications using HTML, CSS, JavaScript, and React
- Designed & implemented UI components with Tailwind CSS, Bootstrap, and SASS
- Integrated RESTful APIs to enhance application functionality
- Managed project workflows and version control using GitHub
- Built multiple projects, including Todo App, Calculator, and Guessing Game
- Recreated well-known websites, improving responsiveness and UI/UX optimization.

## Projects

### Todo App

Present

Stay organized with this intuitive Todo App! Built with HTML, CSS, and JavaScript, it allows users to add, delete, and manage tasks effortlessly. It also features a sleek dark mode/light mode toggle for a personalized experience.

- HTML | CSS | JavaScript
- Live Link: <https://ikechukwuchiemeliecharles.github.io/ToDo/#>

### Guessing Game

Present

Test your intuition with this fun and interactive guessing game! Built with HTML, CSS, and JavaScript, it challenges users to guess the correct number while enjoying a smooth and engaging interface.

- HTML | CSS | JavaScript
- Live Link: <https://ikechukwuchiemeliecharles.github.io/Guessing-Game/>

### Spot

Present

I collaborated with a front-end developer, product designers and a project manager to build a website named spot, which is a website where designers can post their projects and get feed back on specific parts of their work.

- HTML | CSS | JavaScript
- Live Link: <https://spot-ndt2.vercel.app/>
